

**C95-15BS  
 BELT STATION CABLE  
 P/N 40872G-01**

**INSTALLATION SHEET**

The C95-15BS Belt Station Cable (labeled as Item 5 in Fig. A) is an extension between the C95-XXLN System Cables and the U9510BS Belt Stations. One end of the connectorized Belt Station Cable (the larger connector) plugs into the end of the C95-XXLN System Cable, while the other end plugs in the U9510BS Belt Station. One Belt Station Cable is required for each headset used in the system.
