

AURORA

INDUSTRIAL-CLASS BLUETOOTH® HEADSETS

Why David Clark BT?

Q: Why use DC Bluetooth® headsets when there are so many Bluetooth® headsets out there?

Answers:

- (1) DC knows mission critical. We make the spacesuit.**
- (2) Our headsets last 20-30 years in the field. Just ask a pilot.**
- (3) 80 hours of talk time / 140 of standby will last longer than anything you can pair it to.**
- (4) Comfortable to wear for an extra long work day.**

What is BT 4.0?

It's Clever!

Remembers last device it was paired to. Just turn it on. Done.

Designed for low energy consumption so the headset won't deplete your phone battery or its own battery.

Backwards compatible to older BT devices

It lasts much longer on a charge.

Also Known As:

- Bluetooth® Low Energy
- Bluetooth® 4.0

Self healing connection in case you walk out of range.

Aurora Class Headsets

HBT-30

HBT-40

HBT-60

USB Charger Cord

Touch the button on the ear cup to:

- Answer / hang up calls
- Play / pause music
- Press and hold to dial last number called

Ideal For Countless Applications

Aurora Class Bluetooth Headsets are ideal for:

- Construction
- Pro Audio Intercom Apps
- Camera Operators
- Industrial manufacturing
- Leak detector / Machine Analyzers
- Tree Service / Landscaping
- Pro Gaming / Computer
- Firing Ranges
- Plant tours
- Utility work
- Bridge inspection
- Warehouse
- Packaging
- Rock concerts
- Sporting arenas

If there's a lot of noise, we've got you covered!

Listen Only Headset

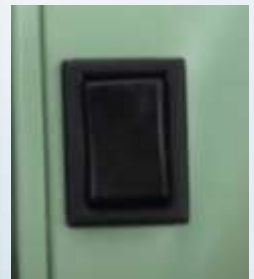

The major application of the listen only HBT-60 is with industrial listening equipment such as leak detectors, machine health analyzers and other ruggedized smart devices.

OEM's of such equipment have tested and approved our headset. These include Emerson, UE Systems, Prufteknik and more.

Volume control is included on this model because the listening equipment does not typically include a volume control but it is needed for safety.

Most equipment has BT built in but dongles can be utilized if not.

Pro Gaming

- Pro Gamers use Skype or in-game comms while playing MMO's (massive multiplayer online) games.
- Military games are big.
- Battle tested, gamer approved!
- The real deal that real soldiers use.

Winning teams of Blizzcon Gaming Finals

Heroes of E-Sports are used to our wired H-USB and H-PC headsets. Now they can enjoy a whole new level of freedom!

Communication Headsets

Answer calls with gloves on!
Hands free communication
Answer without stopping work

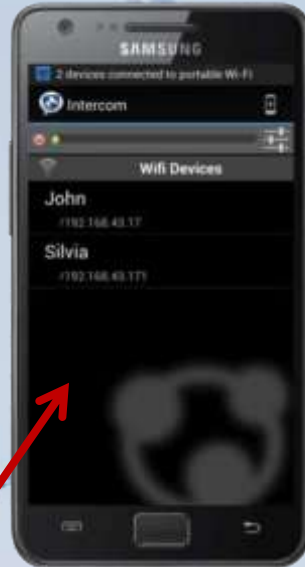

No Wires = Freedom + Safety

Protect Your Hearing
Communicate Clearly
Increase Worker Safety

Communication Headsets

Groups of workers can use phone apps that connect them together into work groups.

There are many FREE apps like Android Intercom.

Line of site doesn't matter when using a cellphone so it's more versatile than many wireless intercoms

Intercom Apps

Clearcom – Agent IC Intercom App

OEMs such as Clearcom, RTS, Reidel, Crestron and others have developed phone apps to tie into their wired intercom systems.

Used by camera operators. Stadium events have up to 30 operators and as many as 3 communications trailers.

Unity Intercom App

RTS Intercom App

Riedel Intercom App

Dongle Solutions

Perhaps the best, most exciting part is that you can pair to *anything* if you have the right dongle!

JK Audio makes XLR plug dongles for cameras, RTS and Clearcom belt packs

Can't find a dongle?
Try changing the plug on a standard 3.5mm dongle to have it mate with the device.

USB to BT adapters enable use of our headsets with desktops laptops and gaming consoles.

Thank you
for your attention!
