

**C99-20MS
System Cable
P/N 40935G-05**

INSTALLATION SHEET

The C99-20MS cable is used to interface a U9921-GUV (40994G-01) or U9921-GUV(EU) (40994G-02) Universal Gateway with either a 3100 or 3400 series David Clark Intercom System. In this configuration, one end of the cable connects to the system input port of either an M3442, U3400, or U3401 module, and the other end connects to the Universal Gateway.

It is also used to interface a U9922-G38 (40995G-01) or U9922-G38(EU) (40995G-02) 3800 Gateway to a U9925-GEM (40995G-03) Gateway Expansion Module. In this configuration, one end of the cable connects to the system input port of the 3800 Gateway, and the other end connects to the U9925-GEM.
