

Model M9110FM Flush Mounting Kit

P/N 44004G-02

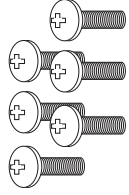

Components:

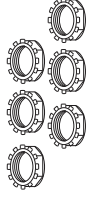

Mounting Plate with Gasket

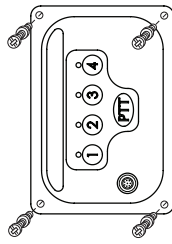

4 ea. 8-32 x 3/4"
Sealing Screws
with Nylon Patch

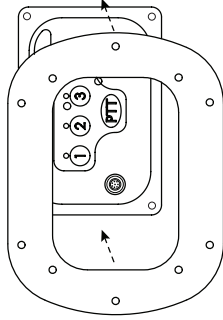

6 ea. 8-32 x 3/4"
Sealing Screws

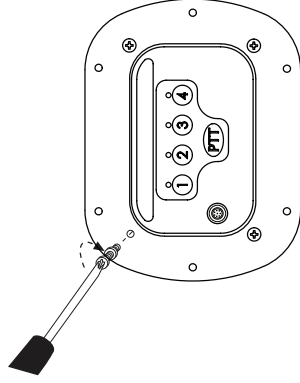

6 ea. Hex Nut with
Lock Washer

1. Remove all 4 captive lid screws and nylon washers.

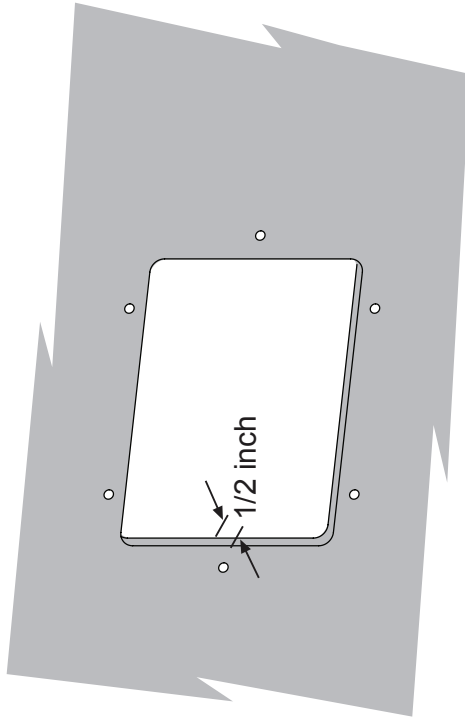

2. Place mounting bracket with gasket side down on the lid.

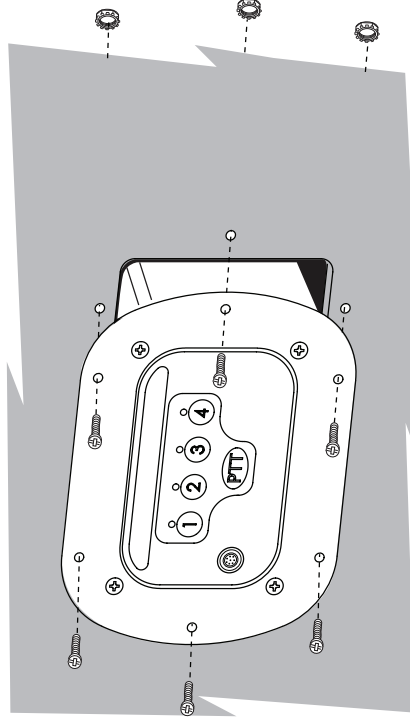

3. Use (4 ea.) 8-32 x 3/4" sealing screws to attach mounting plate, lid, and enclosure together.

Note: Tighten screws securely to ensure full compression.

4. Using template attached, cut cavity and screw holes into panel.

Note: This kit will accommodate a maximum 1/2 inch thick bulkhead dimension.

5. Place module into cavity of the cut panel and fasten with 8-32 sealing screws and nuts with lock washers.
