

Model DC 3630-X (P/N: 43100G-05)

- Hybrid ENC active noise reduction with innovative ‘feed-forward’ and ‘feed-back’ technology
- Bluetooth® enabled, for linking to smartphones, MP3, tablets or other personal electronic devices
- In-line control module regulates ENC power, individual volume control and Bluetooth link, with multi-color backlights to provide status
- Dual voice coil drivers ensure fail-safe operation in case of battery loss
- Digital Signal Processing (DSP) provides high-fidelity audio
- M-55 noise-canceling microphone ensures superior transmit clarity
- Leatherette head-pad and ear seals with slow-recovery ‘memory’ foam, coupled with an extremely lightweight and rest-on-ear headset design, affords countless hours of superior comfort
- Lightweight Alloy headband/suspension system and swivel hinge stirrups integrate a rugged, durable design with fully adjustable platform for personalized fit and comfort

Model DC 3630 (P/N: 43101G-03)

- Passive electronic design for low-noise environments
- M-55 noise-canceling microphone ensures superior transmit clarity
- Same comfort features as DC 3630-X
- Same headband/suspension system and swivel hinge stirrup construction and design as DC 3630-X
- Provides superior comfort and performance over long work hours

Model DC 3690 (P/N: 43104G-02)

- Passive electronic design for very low-noise environments
- Same as DC 3630 above, but in a single-ear design
- Leatherette temple pad, incorporated with swivel hinge design, ensures optimal fit
- Provides superior comfort and performance over long work hours

Each model is fully collapsible for easy, compact storage
