

**Aircraft Push-Back
System Cable
P/N 41035G-08**

INSTALLATION SHEET

The aircraft push-back cable is used to interface between a Gateway Wireless System and the low impedance or high impedance military aircraft with 6-pin MS connector. One end of the cable connects to the Push-Back Gateway U9920-GPB (P/N 40993G-01) and the other end connects to the aircraft input port.
