

DC USB-S Headset

FEATURES AND BENEFITS

- Single ear, for use in simulators, dispatch, ATC applications
- M55 noise-canceling microphone for superlative speech clarity for high output use
- Full flex mic boom, 280° rotating for perfect mic placement on left or right side
- Dynamic earphone provides excellent reception quality
- Leatherette head-pad and ear seal with slow-recovery ‘memory’ foam provides the ultimate in comfort
- Metal alloy hardware designed for ultra-lightweight, yet rugged, reliable construction
- Adjustable headband/suspension assembly and swivel hinge stirrups ensure a perfect, personalized fit
- Made in the USA

DESCRIPTION

DC USB-S Headsets are designed to provide crisp, clear communications and superior comfort, ideal for UAV shelters, data vans, Command and Control vehicles and other low-noise applications.

The Model DC USB-S is a single-ear, over-the-head style headset with a supra-aural design (rest-on-ear, as opposed to circum-aural), capable of affording comfort and communication clarity. It features the new M55 electret microphone, delivering superlative speech intelligibility for high output use.

Metal alloy hardware is used for a rugged, yet lightweight headset platform. Comfort features such as leatherette head-pad and ear seal with slow-recovery ‘memory’ foam are specifically chosen for exceptional comfort over long periods of time.

With its full feature engineering and ultra-lightweight design (6.3 oz.), the DC USB-S provides the ultimate in performance, comfort and communication clarity for a wide variety of applications.

TECHNICAL DATA

Weight (w/o cord)	6.3 oz (179g)
Dome Type	Supra-aural (rest-on-ear)
Hardware	Lightweight Alloy
Ear Freq Response	12-15kHz
Mic Freq Response	100Hz – 10kHz
Connector Type	USB
Connection Cable	0.155" (4-mm) OD shielded
Cable Length	10 ft. straight cord
