DCJET-X

If you're flying the line, this is the line of headsets for you.

New **DC JET Series** headsets from David Clark Company feature a sleek, ultra-light (just 4.5 ounces), rest-on-ear design. But when it comes to durability, performance and comfort, the **DC JET-X** is no lightweight.

Advanced comfort features include an Outlast® fabric head pad with heat absorbing technology and plush leatherette ear seals with memory foam for a snug, secure fit. Outstanding ANR performance with David Clark Electronic Noise-Cancelling technology ensures quiet comfort, while the advanced noise-cancelling microphone provides clear, crisp communication with ATC.

DC PRO-X₂

DC PRO-X₂

You're not just any pilot, so why fly with just any ship set?

DC PRO-X2 Series headsets from David Clark Company feature a lightweight (just 7.5 ounces) design, on a durable alloy suspension system. With advanced comfort and performance features with an Outlast® heat-absorbing head pad, plush leatherette ear seals with memory foam, and swivel-hinge stirrup that virtually eliminates clamping pressure. Plus Hybrid ANR technology for quiet, fatigue-free flights.

DC PRO-X2 headsets are available in a variety of styles including Bluetooth and Non-Bluetooth models.
